

Little Witley Village Hall Environmental Policy

Little Witley Village Hall committee is committed to protecting and actively promoting the improvement of the local environment.

Little Witley Village Hall committee will ensure that environmental priorities are integrated into the decisions it takes on all its services and will seek to:

- 1) Make the most efficient use of energy. It will endeavour to use the minimum quantities of energy possible in accordance with the safe and efficient operation of its heating, lighting, plant and machinery. It will from time to time review its energy sources, energy using appliances and energy efficiency with a view to causing the least environmental impact. It will monitor consumption and eliminate excessive or unnecessary use. It will communicate to hirers and staff the means by which energy may be conserved, e.g. closing doors.
- 2) Encourage those using the hall to walk, cycle and use public or communal transport as alternatives to the private car.
- 3) Minimise and where possible and practical reduce or eliminate pollution. Users will be encouraged to avoid creating noise pollution, especially at night.
- 4) Use the minimum quantities of water possible in accordance with its activities and ensure that the water it uses is both supplied and disposed of meeting statutory requirements. It will reduce and eliminate leakage where possible and eliminate excessive or unnecessary use.
- 5) Avoid waste and encourage the appropriate conservation, re-use and recycling of resources where available. It will re-use and recycle materials as far as possible and, if this is impractical, disposal by a means which conforms to statutory requirements.
- 6) It will ensure that the potential environmental impact of any building projects will be assessed and minimized where possible and practical. This will include, where possible and practical, methods of construction which make best use of resources; designs which result in low maintenance and high energy efficiency and where possible the use of building materials from sustainable sources. It will encourage volunteers, hirers and staff to use and operate the building correctly to conserve energy and minimise waste.
- 7) Promote a sense of responsibility and understanding for the environment and participation in environmental issues, by raising user and staff awareness, by information provision and open consultation with the local community as opportunities arise.
- 8) It will seek, where possible and practical, to purchase from local or regional suppliers, in order to maximise input to the local community and minimise carbon emissions from transport.

9) Protect the health and well-being of all staff and visitors and improve and safeguard the quality of Little Witley Village Hall.

10) Monitor, review and where possible improve performance year on year with positive action on any areas of non-compliance.

Review

This policy will be reviewed every two years
